Mustela®. Ekspert w pielęgnacji skóry dziecka i przyszłej mamy od ponad 60 lat.

# Mustela<sup>®</sup>, accompanying babies and mothers

For more than 60 years, Mustela<sup>®</sup> has been writing a story about skincare and protection with mothers and babies all over the world.

Highly sensory, Mustela<sup>®</sup> products provide a unique comfort and enjoyment, ensuring that every aspect of your baby's cleansing routine becomes a moment of well-being, tenderness and awakening of senses.

This unique emotion is conveyed from mother to child, from generation to generation through Mustela<sup>®</sup> instantly recognisable fragrance.

And because nothing is more precious than your baby's skin, Mustela<sup>®</sup> is always extending the boundaries of its dermo-cosmetics research and its exploration of nature, seeking innovative active ingredients.

Safe, effective and even more natural, Mustela<sup>®</sup> skincare products meet all babies' skin requirements: from healthy skin to skin with atopic tendency and a whole range of other skin disorders, as well as a special line of sun protection products. A full range is also dedicated to your pregnancy and then once you have given birth – helping your skin to retain all of its beauty throughout this unforgettable period.

# special offer

**exclusively for business**

To congratulate Your employee or co-worker on the birth of a baby, we prepared special 3 gift baskets with Mustela products for babies and mothers.

Choose one of the sets and think of a personal dedication - we will deliver the set directly to maternity ward. It's a surprise no-one will ever forget!
